

I do some community service work through my school and typically drive people to and from school/home and we listen to the radio both ways. Airl is great station. Its positive music and encouraging words on each drive continue to support me in my daily life. I know I'm not the only one. The people I volunteer with get encouraged by the station too. It supports daily life, family life, and community. Without it, the positive influence on so many peoples' lives would be gone. There are not many Christian rock/alternative radio stations. Airl gives the community an alternative music from the degrading and depressing music or talk of other stations.
